

ESS container project financing options in Guernsey 2030

What is future Guernsey's plan? Future Guernsey's plan is ambitious, but with determined, effective leadership and political collaboration it is deliverable. It focuses on pragmatic policies to deliver sustainable economic growth, affordable housing, and high-quality public services.

What is ESS3 resource efficiency & pollution prevention & management? ESS3 Resource Efficiency and Pollution Prevention and Management recognizes that economic activity and urbanization often generate pollution to air, water, and land, and consume finite resources that may threaten people, ecosystem services and the environment at the local, regional, and global levels. How can Guernsey's Development & Planning Authority help deliver new homes? Guernsey's Development & Planning Authority must be enabled to help deliver new homes as quickly as possible. We support: Expanding the use of 'permissions-in-principle' to ensure developers know sooner if a project is feasible. Does Guernsey need a skills strategy? Guernsey needs a clear Skills Strategy as competition grows and as our economy stagnates. Our people are our most important resource, and we must ensure they are highly skilled and do not face barriers due to a lack of training. The Skills Strategy must complement our economy and education system, and has to be simple, flexible, and actively used. What is Guernsey Government's responsibility? It is government's responsibility to ensure that publicly owned assets are managed to deliver the best for islanders. To achieve this we support: Commercialising Guernsey Water, Guernsey Ports, and States Works to bring them in line with Guernsey Post and Guernsey Electricity. Why are education debates in Guernsey a problem? Education debates in Guernsey have focused too much on secondary schools and buildings, leading to uncertainty for students, teachers, and parents. We need to improve delivery of core subjects, where students often fall behind early. P& R publishes Green Paper on portfolio of 'The only viable options are to restrict the funding available to schemes and/or allow the portfolio period to extend into to be able to use surpluses generated in those Strategic Delivery Framework Chapter 6 identifies a series of elements which need to be further considered, and makes recommendations regarding a potential delivery entity, financing, meanwhile uses and early Environmental and Social Standards (ESS) This ESS sets out the requirements to address resource efficiency and pollution prevention and management throughout the project life-cycle. Read the full ESS3: Resource Efficiency and Envisaging tomorrow's Guernsey So what are some of the forces that Guernsey can harness to help shape a positive future? Here I explore five key forces of change, and the associated actions Guernsey can implement to take Savills Guernsey | Savills responds to the publication of the The Bill includes measures to prioritise grid connections for clean energy projects to help achieve clean power by , including wind and solar power. A 'first ready, first OUR PLAN FOR GUERNSEY: -29 AND BEYOND Guernsey's housing crisis has made it impossible for many to rent or buy a property. For our island to thrive, our young people need the stability, confidence, and community ties that home Sustainable Finance Guernsey Strategy Report This strategy paper sets out measures and themes with a view to Guernsey maintaining its position as a leading sustainable finance centre, informed by extensive E& I publishes policy letter on net zero The policy letter also makes it clear that the States of Guernsey
