

average domestic energy storage price per 15MW in Belgium

How is the energy sector shaped in Belgium? The energy sector in Belgium is shaped by the policies of its national and regional governments, as well as the European Union. The monitoring of the electricity and natural gas market happens on three regional levels, the Brussels-capital region, the Flemish region, and the Walloon region. Why are energy imports booming in Belgium? Imports from France, the Netherlands, the UK, and Germany have surged recently. This cross-border trade is integral to meeting Belgium's electricity demand and managing price volatility. Expect import dependence to continue as the renewable buildout ramps up and nuclear availability changes.

2. Renewables on the Rise

How renewables are affecting Belgium's power supply? Renewables--especially wind and solar--are rapidly increasing their share of Belgium's power supply. In , wind and solar accounted for roughly one-third of the electricity mix, a significant jump from the previous decade. Offshore wind in the North Sea is a particular success story, with Belgium now among Europe's leaders in offshore capacity. When will regasification be completed in Belgium? Phase 1 which aimed at adding 4.7 Mt/year (6.35 bcm/year) of regasification was completed in early . A second phase of 1.3 Mt/year (1.75 bcm/year) is under construction and scheduled by .

The Belgium energy market report provides expert analysis of the energy market situation in Belgium. Who is the largest gas supplier in Belgium? Electrabel (100% Engie Belgium) is the largest gas supplier with a market share of 41% in (58 TWh). Luminus is the second largest supplier, with a market share of 11% in (17 TWh). Since , all the gas consumed is imported (14.1 bcm in). In , almost half of the gas was imported as LNG. Does Elia publish balancing energy products in Belgium? Elia publishes available volumes and prices for each of the balancing energy products at its disposal in Belgium. The available volumes and prices published here are based on bids and nominations both day-ahead and intraday submitted by BRPs and BSPs in Belgium, taking into account the known technical and contractual constraints. The available volumes and prices published here are based on bids and nominations both day-ahead and intraday submitted by BRPs and BSPs in Belgium, taking into account the known technical and contractual constraints.
