

## enterprise ESS system cost breakdown in Yemen 2026

How did the external OEM enterprise storage systems market perform in ?The external OEM enterprise storage systems (ESS) market reported annual growth of 3.6% in the fourth quarter of , completing the year at 2.5% annual growth and \$33.5 billion in spending. Despite a recovery cycle after declines in the spending for the year was just \$100 million shy from the level of spending in .

What is the lifecycle cost of an ESS?The lifecycle cost of an ESS are divided into four main categories: Upfront Owners Costs; Turnkey Installation Costs (energy storage system, grid integration equipment, and EPC); Operations and Maintenance Costs; and Decommissioning Costs . The table here further segments costs into subcategories and shows items included in this study.

Will the external ESS market recover in ?IDC expects that the recovery of the external ESS market will be pushed into as the strong growth in investments into computing infrastructure will start slowing down.
