How much will Portugal spend on energy storage projects in ? From ESS News Portugal's Ministry of Energy has announced that it has allocated EUR100 million (\$104.2 million) to 43 energy storage projects which should be installed by the end of . A total of 79 applications were vying for grant support secured under the country's Recovery and Resilience Plan (RRP). Why is Portugal launching a solar energy storage project? This initiative aims to enhance the flexibility and stability of Portugal's power supply system amid its record-breaking solar electricity production. On July 31, the ministry announced the allocation of EUR99.75 million through a call for tenders to install energy storage projects totaling 500 MW. What is Portugal's Energy Strategy? The strategy includes a target of 20.4 GW of operational PV systems by , comprising 14.9 GW of large-capacity plants and 5.5 GW of decentralized generation. Additionally, Portugal has launched its first tender for biomethane and green hydrogen as part of this comprehensive energy strategy. Portugal will launch a competitive tender for 750 MVA of battery energy storage before January , as part of a broader EUR400 million package aimed at improving grid reliability and preventing future blackouts. Portugal will launch a competitive tender for 750 MVA of battery energy storage before January , as part of a broader EUR400 million package aimed at improving grid reliability and preventing future blackouts. Government outlines EUR400 million plan to strengthen grid resilience after April blackout.
