

# government procurement price of commercial energy storage in Argentina

The government's estimated investment for the projects is around \$500 million USD, with a required completion timeline of 12 to 18 months. The tender will pay a fixed \$10/MW of electricity supplied and energy storage capacity bids must have a maximum cost of \$15,000/MW/month. The government's estimated investment for the projects is around \$500 million USD, with a required completion timeline of 12 to 18 months. The tender will pay a fixed \$10/MW of electricity supplied and energy storage capacity bids must have a maximum cost of \$15,000/MW/month. Successful bids will be Argentina's first energy storage tender drew 1.347 GW of bids from 15 companies proposing 27 projects, exceeding the 500 MW target and representing more than \$1 billion in pledged investment. From ESS News The Argentinian government opened the bids this week for its AlmaGBA tender process. The Argentina's government said on Monday it has awarded contracts for 667 MW of capacity in its first tender dedicated to battery energy storage systems (BESS), exceeding its original 500-MW target by about 30%. Energy storage battery. Photo by Anna Vasileva These projects will be installed in Argentina has awarded 667MW of battery energy storage system (BESS) in its first tender under the AlmaGBA scheme. Nearly half of the volume submitted for the tender (1.3GW) has been awarded by the wholesale market operator CAMMESA (Compañía Administradora del Mercado Mayorista Eléctrico Sociedad) Fifteen companies submitted 27 proposals totaling 1,347 MW of storage capacity, far surpassing the government's original goal of 500 MW. The bids reflect an estimated \$1 billion in investment, a clear indicator that Argentina's energy market is ripe for transformation. At the core of this Although the Argentinian government has estimated that it will invest half a billion dollars of public funds, the project is being greatly supported by the private funds. The approved bidders will be getting a lesser-paid rate of 10/MW electricity supplied, and the bids in the energy storage Argentina's first energy storage tender receives 1,347 MW of bidsThe government's estimated investment for the projects is around \$500 million USD, with a required completion timeline of 12 to 18 months. The tender will pay a fixed Argentina's first energy storage tender secures 1.35 GW of bidsArgentina's first energy storage tender drew 1.347 GW of bids from 15 companies proposing 27 projects, exceeding the 500 MW target and representing more than Argentina's 1st BESS tender awards 667 MW of projectsArgentina's government said on Monday it has awarded contracts for 667 MW of capacity in its first tender dedicated to battery energy storage systems (BESS), exceeding its Argentina awards 667MW in first energy storage tenderThe AlmaGBA tender aims to secure capacity for utilities Edenor and Edesur in the capital, Buenos Aires. The awarded projects from the first Argentinian BESS tender are Argentina Receives 1.3GW of BESS Proposals for First-Ever This national and international open call, part of Resolution SE 67/, marks Argentina's first large-scale effort to integrate new electricity storage infrastructure into urban Argentina's First Battery Energy Storage Systems Approved bidders will receive \$10/MW for electricity supplied, and the energy storage capacity bids must remain under a ceiling of \$15,000/MW/month--rates aimed at encouraging cost discipline without Argentina's Oversubscribed Energy Storage Tender The approved bidders will be getting a lesser-paid rate of
