

successful bid price of Solar Inverter project in Portugal 2026

How much does a solar auction cost in Portugal? Portugal's second solar auction has closed with record-breaking low prices of EUR11.14/MWh (US\$13.12), or US\$0./kWh, the country's government announced yesterday. Of the 700MW available for auction, 670MW was awarded, with Hanwha Q CELLS winning half of the 12 lots with bids that included battery storage. What is the lowest PV bid in Portugal? It also comes in around 25% lower than the lowest bid in Portugal's first PV tender last year, which was EUR14.76/MWh and at the time itself a record. Held on 24 and 25 August, the latest auction was for lots in Portugal's southern regions of Alentejo and Algarve. Originally due to take place in spring, it was delayed due COVID-19. How much does a solar system cost in Portugal? The Portuguese Government came into this auction expecting to obtain 33.5 thousand euros per MWh, but the winners ended up paying to 37.1 thousand euros per MWh to the system. Also, the World record for the lowest output price was broken once again with a bid of EUR0./kWh. In Spain, the development of solar energy started earlier. What is the lowest bid for a solar project? The lowest bid falls below the previous solar industry record tariff of US\$0./kWh set by the Al Dhafra project in Abu Dhabi in April. It also comes in around 25% lower than the lowest bid in Portugal's first PV tender last year, which was EUR14.76/MWh and at the time itself a record. How has solar technology changed the energy industry in Portugal? Particularly in solar, there has been a significant reduction of costs associated with PV technology since which, alongside with the high level of predictability of solar resources, has led to an increase of the number of requests for energy production licenses in Portugal. Who won a solar project in Abu Dhabi? Other winners included Tag Energy, Iberdrola and Enel, with the majority of the lots including battery storage. The lowest bid falls below the previous solar industry record tariff of US\$0./kWh set by the Al Dhafra project in Abu Dhabi in April. French firm Akuo Energy and Spanish giant Iberdrola reaped together nearly half of the 1.15GW total awarded through the July auction, which made global headlines as reports emerged of bid prices of EUR14.76/MWh (around US\$16/MWh). French firm Akuo Energy and Spanish giant Iberdrola reaped together nearly half of the 1.15GW total awarded through the July auction, which made global headlines as reports emerged of bid prices of EUR14.76/MWh (around US\$16/MWh). Portugal's Directorate-General of Energy and Geology (DGEG) published on Wednesday the list of winning bids in the country's solar auction held in July, confirming earlier reports that Spain's Iberdrola SA (BME:IBE) and French independent power producer Akuo Energy SAS walked away as the biggest Portugal's second solar auction has closed with record-breaking low prices of EUR11.14/MWh (US\$13.12), or US\$0./kWh, the country's government announced yesterday.
