

## successful bid price of photovoltaic ESS project in Romania 2025

Romania has allocated 1,488 MW of solar in its second contracts for difference (CfD) auction for renewables. Prices of the 26 winning solar bids ranged from EUR35.50 (\$41.59)/MWh to EUR45.20/MWh. The results of Romania's second renewables auction, which set out to procure 1,472 MW of solar and 2,000 ENGIE Romania's Falcon Wind project, first below the line in the first CfD auction round, has now successfully bid around 52 MW at a price of EUR72.7/MWh, more than EUR5 lower. Among the PV projects declared winners, the largest capacity - 520 MW - appears in the Dama project (West Power Investments). Wind and solar power projects with a combined capacity over 1.5 GW in Romania are eligible for subsidies under a contract-for-difference (CfD) scheme. The first round of auctions resulted with ten and eleven winning bids, respectively. The weighted average of accepted wind power prices is EUR 65. Romania has concluded its maiden auction round under the country's contracts for difference (CfD) scheme, selecting 1.528 GW of new solar PV and wind energy capacity. Winning prices were 20% to 30% lower than the ceiling tariffs, according to the Ministry of Energy. A total of 48 bids were Aurora Energy Research foresees double digit internal rates of return for standalone battery energy storage (BESS) projects entering the market as early as , while co-located assets could prove even more promising - especially post where rising saturation in the balancing markets is. The maximum bidding price for solar PV has been set at EUR73/MWh (US\$82.1/MWh). Image: PJ Gal-Szabo via Unsplash. The Romanian Ministry of Energy has launched its second Contracts for Difference (CfD) round, seeking 1.5GW of solar PV. The previous round ended up more than three times oversubscribed. Romania awards 1.4 GW of solar at average EUR40.46/MWh in Prices for the winning solar bids range from EUR35.50/MWh to EUR45.20/MWh, resulting in an average of EUR40.46/MWh. This compares to a maximum strike price of EUR73/MWh. Romania has selected the winners of the second round of CfD. ENGIE Romania's Falcon Wind project, first below the line in the first CfD auction round, has now successfully bid around 52 MW at a price of EUR72.7/MWh, more than EUR5. Romania declares winners of its wind, solar power. Israel-based Nofar Energy obtained the right to a CfD for its Slobozia solar power project of 70.2 MW. It was the highest bid in the auction, EUR 54.18 per MWh, and the second-biggest proposed facility. Romania Selects Over 1.5 GW RE Capacity Under Romania has concluded its maiden auction round under the country's contracts for difference (CfD) scheme, selecting 1.528 GW of new solar PV and wind energy capacity. Winning prices were 20% to 30% lower than the. Big things ahead for Romanian BESS investments. Based on its modeling, Aurora foresees double digit internal rates of return for standalone BESS projects entering the market as early as , while co-located assets could. Romania launches second CfD seeking 1.5GW of. The deadline to submit funding applications in the second CfD has been set for 11 July , while winning bids will be notified on 14 August . Romania's solar energy market set for rapid growth in "In , we anticipate advancements in storage technology and lower battery prices. Energy storage is becoming a top priority, and Romania is working hard to address this gap. The second CfD auction for renewables is entering a straight line. The strike prices for wind were between 54.5 euros/MWh and 77.3 euros/MWh, and

## successful bid price of photovoltaic ESS project in Romania 2025

those for photovoltaic between 45 and 54.1 euros/MWh. The largest wind project that will Romania launches new auction with 1.5 GW allocated to solar Projects are selected through a tender process based on the price offered by eligible participants in euros per MWh. The price cap for photovoltaics is set at 73 euros per Romania's First CfD Auction Awards over 1.5 GW of The winning bids came in highly competitive, with prices 20-30% below the cap. The average price for wind energy was EUR65/MWh, while solar energy averaged EUR51/MWh. Review | The &quot;Best&quot; of Global ESS Projects and Orders [Review of | The &quot;Most&quot; of Global ESS Projects and Orders] Global demand for energy storage is accelerating rapidly. On one hand, the selling prices of ESS Latest Grid-scale/Utility Scale Energy Storage System (ESS) Projects Search all the latest and upcoming GUSESS projects, bids, RFPs, ICBs, tenders, government contracts, and awards in Romania with our comprehensive online database. Renewable energy EPC and PV& BESS Development We are renewable energy and infrastructure company, focused on solar EPC, PV& BESS, operation and maintenance (O& M) and solar technology. List of Upcoming Grid-scale/Utility Scale Energy Storage System (ESS Search all the announced and upcoming GUSESS projects, bids, RFPs, ICBs, tenders, government contracts, and awards in Romania with our comprehensive online database. The Current State of Large-Scale PV Projects in As Romania continues to prioritize the development of renewable energy sources, the successful completion of these PV projects in and will serve as a significant milestone in the country's journey Romania allocates 432 MW of PV at average price of The Romanian authorities have allocated 1.52 GW of renewable energy capacity in a procurement exercise, with the lowest bid for PV technology at EUR0.045 (\$0.047)/kWh.
