

successful bid price of residential ESS project in Brazil 2026

How is the construction market segmented in Brazil? In addition, the report also provides company profiles to understand the competitive landscape of the market. The Brazilian construction market is segmented by sector (commercial construction, residential construction, industrial construction, infrastructure (transportation) construction, and energy and utility construction). What is the growth rate of the Brazil construction market? The Brazil Construction Market is expected to register a CAGR of 8% during the forecast period. The COVID-19 pandemic interrupted the growth of the market. Although construction activity continued in most states, increased uncertainty has prompted builders to delay the launch of new projects while buyers delayed their purchase decisions. How much money did Brazil invest in infrastructure projects in 2020? USD 866 million was invested in 762 infrastructure projects in 2020 to upgrade the state of Brazilian tourist cities and maximize the potential of the industry, drawing more tourists and providing them with a more comfortable stay. How did Brazil's house price index perform in April 2022? In April 2022, Brazil's FIPEZAP house price index was up by 7.97% from a year earlier, an acceleration from the 5.76% y-o-y growth seen in April 2021, according to figures released by Fundação Instituto de Pesquisas Econômicas (FIPE). However, when adjusted for inflation, nationwide house prices rose by a more modest 2.31% over the same period. How does construction affect economic activity in Brazil? Construction is characterized by long cycles that, in general, coincide with economic activity cycles. In Brazil, the Gross Value Added (GVA) of the construction sector has grown modestly from 2010 to 2020, partly due to high interest rates and low earmarking of resources to real estate financing in the period. What is the real estate market like in Brazil? Brazil's residential real estate market is growing robustly, buoyed by the continued surge in property demand and increasing construction activity. This extended overview from the Global Property Guide covers key aspects of the Brazil housing market and takes a closer look at its most recent developments and long-term trends.
