

## successful bid price of wall mounted battery project in South Africa 202

Who are the preferred bidders for new battery storage capacity?etc. Independent power producers (IPPs) Mulilo and Scatec have been named as preferred bidders to develop 616 MW/2 464 MWh of new battery storage capacity at a cost of R9.5-billion across five substation sites in the Free State province. Why should we invest in battery energy storage in South Africa?We applaud the South African government's commitment and dedication to the renewable energy procurement programmes. Battery energy storage will continue to play an important role in the energy transition, and we will continue to be at the forefront across our core markets," says Scatec CEO Terje Pilskog. How much does Scatec's battery energy storage project cost?The estimated total capex for the battery energy storage project is ZAR 2.2 billion (USD 120 million) of which Scatec's EPC contracts account for approximately 80%. The project will be financed by 90% non-recourse project debt and the remaining by equity from the owners. How many bid windows are there for battery energy storage?A further two Battery Energy Storage bid windows currently underway. Bid Window 2 (totaling 615M) is currently in evaluation phase with bid announcement expected within the next few weeks. Bid submission for Bid Window 3 is planned will be on 28th November . How long does it take to build a storage facility in South Africa?Project construction is expected to take no more than 24 months and the storage capacity is expected to come online no later than November . The projects will attract a total investment of R4.7 billion. South African Entity Participation of around 42.23%, and BEE ownership of 40% has been achieved across both projects. Who are the bidders?The list of bidders includes a variety of consortiums and developers, many of which are registered under holding names that obscure the specific Independent Power Producers (IPPs) involved. However, prominent participants include TotalEnergies, which submitted four bids and Globeleq, with a single submission. The ambitious project, which carries a price tag of R9.5 billion, will be implemented across five strategic substation sites in the Free State province. In an exciting development for South Africa's energy landscape, Independent Power Producers (IPPs) Mulilo and Scatec have been awarded the role of preferred bidders to develop a substantial 616 MW/2,464 MWh battery storage capacity. The ambitious project, which carries a price tag of R9.5 billion Independent power producers (IPPs) Mulilo and Scatec have been named as preferred bidders to develop 616 MW/2 464 MWh of new battery storage capacity at a cost of R9.5-billion across five substation sites in the Free State province. Electricity and Energy Minister Dr Kgosientsho Ramokgopa made the Dubai, United Arab Emirates, 6th January - AMEA Power, one of the fastest-growing renewable energy companies in the region, announced today that it has been awarded two pivotal Battery Energy Storage Projects (BESS) projects through Bid Window 2 of BESIPPPP, organized by South Africa's Oslo, 30 May : Scatec ASA has been awarded preferred bidder status for the Haru BESS Battery Energy Storage Project totalling 123 MW/492 MWh in the third bid window of the Battery Energy Storage Independent Power Producer Procurement Programme (BESIPPPP) in South Africa, by the Department of 18 NOVEMBER The Minister of Electricity and Energy, Hon. Dr. Kgosientsho Ramokgopa, is pleased to announce the successful signing of Projects Agreements and Commercial Close of an additional two Projects

## successful bid price of wall mounted battery project in South Africa 202

appointed as Preferred Bidders under the first Battery Energy Storage Independent Power South African energy firm Mulilo Energy was awarded four projects, totalling 1,972 MWh for battery energy storage systems. That's approximately 80% of the total capacity sought in the third bid window of the Battery Energy Storage Independent Power Producer Procurement Programme (BESIPPPP). Mulilo and Scatec Win the Spotlight with R9.5bn Battery Storage The ambitious project, which carries a price tag of R9.5 billion, will be implemented across five strategic substation sites in the Free State province. Mulilo and Scatec emerge as preferred bidders for Independent power producers (IPPs) Mulilo and Scatec have been named as preferred bidders to develop 616 MW/2 464 MWh of new battery storage capacity at a cost of R9.5-billion across five South Africa Selects Preferred Bidders for 616 MW Battery The third bid window showed a significant drop in cost, with evaluation prices decreasing by 40% and 8% compared to Bid Windows 1 and 2 respectively, demonstrating AMEA Power Awarded Two Major Standalone Battery These projects represent our first successful awards of BESS projects, through a competitive bidding process and underscore our commitment to providing sustainable, resilient and cost-effective energy solutions. Scatec wins battery storage project in South Africa Building on the experience garnered from the hybrid solar and battery storage projects at Kenhardt, and the ongoing construction of Mogobe BESS, Scatec continues to actively support battery integration to stabilise the DMR Newsroom | Department of Mineral Resources Both projects, developed by EDF International and their project partners, Mulilo, Gibb-Crede, Pele Green Energy, and a community trust, will be located in the Northern Cape Mulilo wins big in latest SA battery storage programme This intense competition resulted in significantly lower bid prices for companies seeking to secure projects. The five awarded projects are expected to inject a total investment 33 Bids Submitted for South Africa's Battery Storage South Africa 's Independent Power Producers Office has announced the submission of 33 bids by 28 companies for Bid Window 3 of the Battery Energy Storage Independent Power Producers Procurement Program. Scatec wins battery storage project in South Africa Scatec ASA has been awarded preferred bidder status for the Haru BESS Battery Energy Storage Project in South Africa by the Department of Mineral Resources and Energy.
