

utility scale ESS project financing options in Greece 2025

Does Greece have a battery storage subsidy program? Greece's latest auction has awarded subsidies to 188.9 MW of standalone, front-of-the-meter, utility-scale battery energy storage. The auction was the third and final edition of a battery storage subsidy program launched in , with the country now turning its focus towards a new 4.7 GW unsubsidized BESS scheme. How many MW of storage will Greece need by ? The majority of the projects (2,650 MW) belong to Group G and will connect to ADMIE as follows per region. A key factor driving companies is that this large capacity will cover all the storage needs Greece will require by . Does Greece have a Bess subsidy program? Moving forward, Greece is abandoning subsidizing BESS via auctions. Instead, the country has recently launched a new program for 4.7 GW of unsubsidized BESS which will be offered priority grid connections on a merchant basis without subsidy support.
